about the author

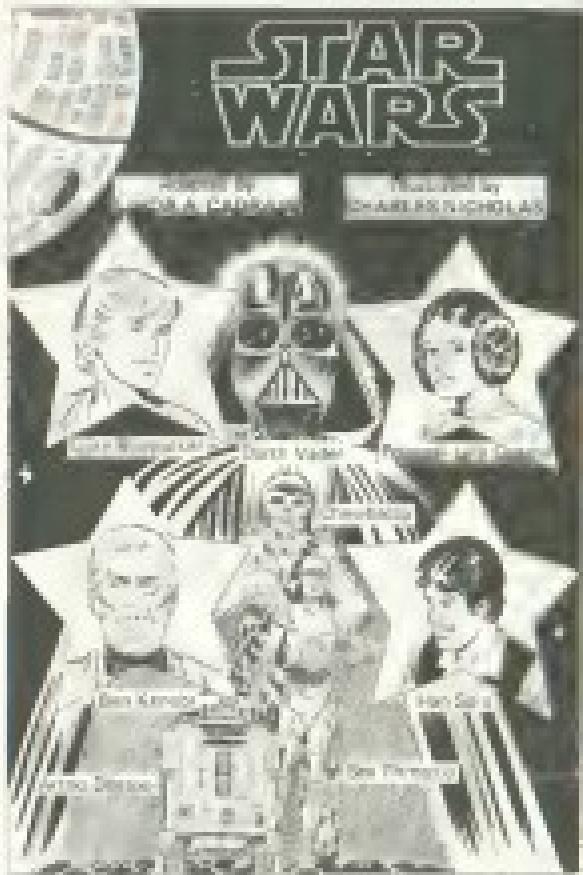

George Lucas was born on May 14, 1944 in Modesto, California. While attending Modesto Junior College, he met Rhonda Haskell Weisz who encouraged him to study at the University of Southern California Film School. As a student Lucas made eight films, one of which entitled *TWENTY-ONE*, a science fiction short, won the Third Midwest Student Film Festival award.

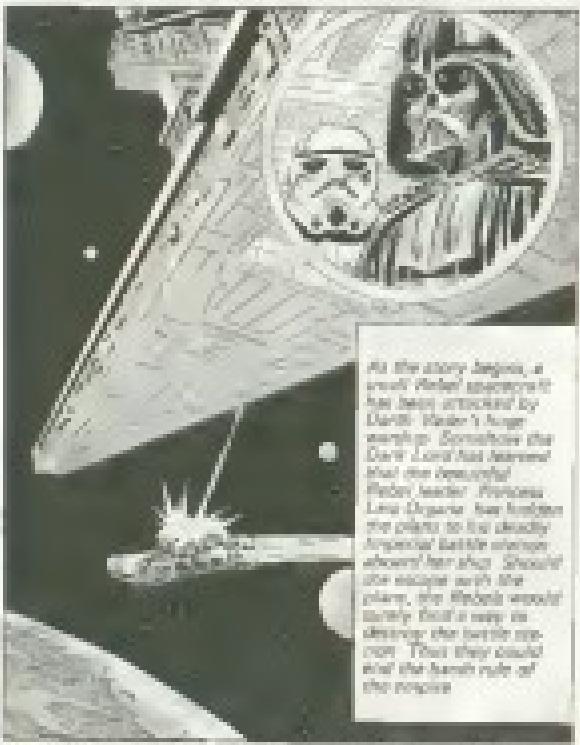

After making a number of short films and one feature film, Lucas became a well-known American director in 1973. Nominated for five Academy Awards, *American Graffiti* won the Golden Globe Award for the best comedy motion picture, and two other awards for the best screenplay.

The Empire Strikes Back, the story of Luke Skywalker and his fight against the evil Darth Vader, is already being regarded a science fiction classic. With its fast-paced action and development of colorful characters, it has impressed the industry that Star Wars won six Academy Awards.

George Lucas is still growing as a writer and as a filmmaker. Since 1973 he's been in fact, that he's among the best in the country. He and his wife Marcia live in San Anselmo, California.

"It was a time of great war" in the galaxy.¹¹ On the "Dark Lord" Darth Vader and his legions of soldiers were trying to crush a small group of rebels fighting against them. Then there, the Rebels, knew that the Imperial government that ruled the galaxy had great resources. They feared that its leader, Darth Vader, and his evil friends would try to enslave the people of the galaxy, their planet.

As the story begins, a small *Pelot* community has been attacked by David Wain's huge army. Sonchoune the Dove Lord had learned that one powerful Pelot leader, Princess Lina Organa, has hidden the plan to build a deadly Imperial Bubble weapon aboard her ship. Should the empire win the plan, the world would likely find it very easy to destroy the entire system. Thus they could end the harsh rule of the people.

Inside the *Pelot's* cockpit, Phoenix Lure bid the pilot "Goodbye" and the "Squad" of a "Third" started across Zembla.

We will not get away this time, Phoenix. Take those planes to Oto and Kainaku on the planet Tenebros. He will know how to handle us.

Meanwhile, Army Part United had broken the blood tie between the god of a fortress where the life party *** were held.

A portion of "Third Squad" is reflected in the side panel of a Phoenix's cockpit. Phoenix approached each of the following six of the series using a different method for safety and security.

After Artoo left, Ezra heard several loud crashes behind his

bars. That's what you think, Phoenix. Shouldn't we be all right, even though we're not?"

Just then something exploded in the hallway behind Threepio. As Palms could not see where it hit, he jumped onto the past-due Artoo.

Meanwhile, inside the ship, the Phoenix Line was being taken to the next delivery when Darth Vader reached for her.

"Lord Vader... I would have known! How does you hold your very own membership on a disciplinary committee?" The government will not stand for this!

Don't play games with me, Phoenix. Where are the plans for the Death Star battle station? Very well, if you don't want to tell her these, you can tell me later. Take her away!

As soon as possible, the last starship to leave the station passes and has done this step.

Did they take long for Artoo and Threepio to reach Tatooine? Once there, however, the two droids could not agree on the route. They would take across the desert.

"Well, I don't want to go that way! It's too rocky. What makes you think transports might have used that route anyway?"

Beep-beep!
Beep-beep!

Artoo walked away under the hot sun, looking for what seemed like Artoo. Suddenly, from a nearby tree, a scorpion crawled out and knocked him down. Then Artoo found his hiding place behind a large rock, scared stiff. Artoo..."

"I'm so scared."

"I'm all alone in here!"

"I'm scared to even move across the sand! And look at me! I'm afraid to go."

"Don't you see that many droids I have seen? I've never seen that one. But don't worry, I am here to help. I am going to help."

Beep-beep!
Beep-beep!

But just as he was to use his Podracer, Threepio was not at all happy about being locked up. Much later, however, a great door opened and the two droids were pushed outside, out of the...

"I will be dropped
one at a time,
then I will be
locked up.
All right, I'll take
that deal."

A young man, Luke, took the two droids into the garage. First he helped Threepio into an old bath chair, began cleaning the sand out of Artoo's morning party. Suddenly a small piece of metal broke Artoo's skin. Artoo said a picture appeared:

Artoo sees it. It

It must
be Obi-Wan.

I don't know where Obi-wan Kenobi, but old Obi-wan Kenobi lives in the desert. He's a hermit! My master sends him... anywhere he can or anywhere he likes.

One more

You're very
busy now...

Just then, Luke's heart called them to dinner, and the pleasure of the beautiful girl faded away. As they entered the cold, dark coach interior, it was so pitch-dark he turned and walked back into the desert.

That dinner... You ate every item that was there! He's smelly and messy and he has had lunch somewhere else, I swear!

As far as someone named Obi-wan Kenobi, I hope I'll find him around tomorrow, but he must have died when your father did.

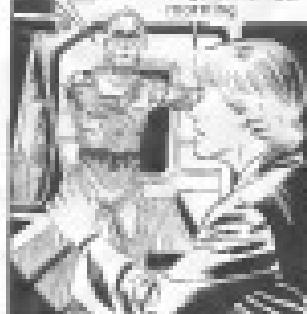

All right, I-I think I'll finish cleaning up those two men shortly. I never like hunting dirty.

Back at the garage, Luke found a Jedi Knight waiting for him.

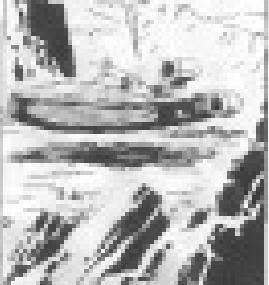

Palpatine, sir! It's my fault. I really have not been going but he kept talking about Obi-wan...

Oh no! Are you talking to that Artoo? In general, I'd like him to look for me now. But I have to go through the morning.

Early the next day Luke and Obi-wan set out to search for Anakin.

I hope we find him again. I've never been this far out in the desert before. What's something a hunting in the Tatooine now, and a year might be too little to find.

When they finally caught up with Anakin Thompson became angry and began to shoot at him. He ran off, leaving away. But suddenly the entire street began crashing together! They were at danger!

Sir, the lights didn't strange structures are coming this way!

That's fine, Palpatine. I'll be there in time for the funeral of

But before Luke and the two rebels could get away, a giant Tykken Knight stepped in front of the boy and knocked him down. Then, grunting all over again, and as the two rebels ran.

Once in Ben's home-like home, Luke told him Anakin's story. Right at the end, the name "Darth Vader" Ben added:

The message over, Ben told Luke about the way in which he had fought as a Jedi Knight: "Then we went apart, and took something from an old chest which we buried in the Lake."

"Your father was a Jedi Knight too, you know. He was one of the best apprentices we had. He asked me to give you this when you were old enough."

General Grievous' Knights. I am Princess Leia Organa speaking to you on behalf of the Rebels. Years ago you fought at Hoth. The Empire still has us. We have no hope. Never the Rebels are the ones to do the Death Star battle station. They will win! Darth Vader plans to find our galaxy. Take them to me Father on Alderaan. You is my only hope!"

He gives his lightsaber to the entrance of a jedi Knight. He used it well and Darth Vader, one of his former Knights, attacked and killed him. Vader used the power of the Force for evil.

REVIEW *Star Wars: Darth Vader and the Imperial Fleet* is a well-made comic book that successfully captures the feel of the original Star Wars movies. It's a great addition to any Star Wars collection.

"There is no time to be lost. Darth Vader! We may be too late, but I am going to attack on the Death Star, and there is no way we can tell who's going to be in charge."

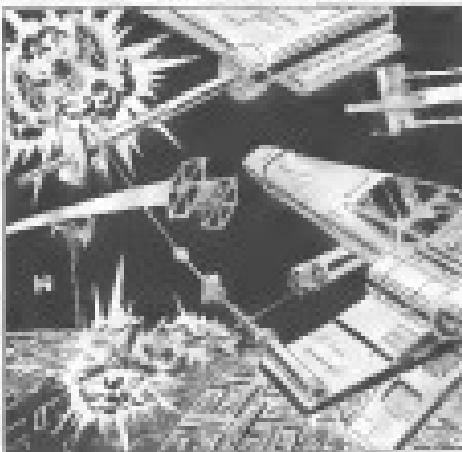

REVIEW *Star Wars: Darth Vader and the Imperial Fleet*

Bearing the Death Star, the gold attack force prepared to dive toward the target.

For over fifteen hours, the red group fought with extreme energy to show there was more than one gold force. But good points of day in the night didn't make them think the gold group had been stopped. The first attack had clearly

This is Red Leader. We'll try to bring them home, young after you! May the Force be with you!

This is Red Leader. We'll try to bring them home, young after you! May the Force be with you!

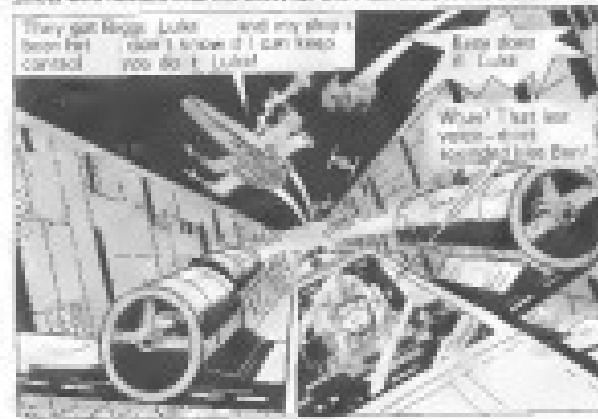

Next, Red Leader and two of his ships dashed into the target area. Red Leader was right before Luke.

That was Obi-Wan behind you, Red Leader. I could see you!

Dana was only one minute late. We are closer to Center than the green group who headed into the drift for their last shot at the Death Star.

They got Rigo, Luke... and my ship is been hit now. I know if I can keep control... you do it, Luke!

Red does it, Luke.

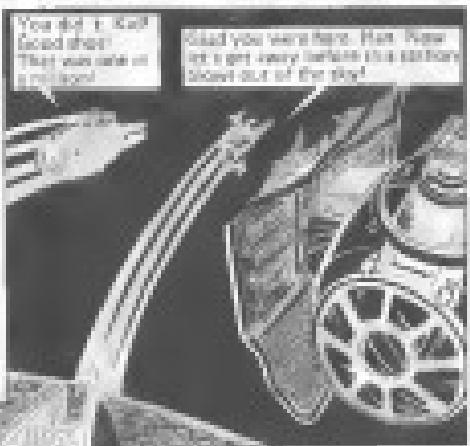

What? Just let your heart control you!

for leaving *Home Sweet Home*. Luke was the only "hero" who left the Death Star. Suddenly two of the many ships exploded, and Luke could see the Millennium Falcon. Far above, taking aim at Darth Vader:

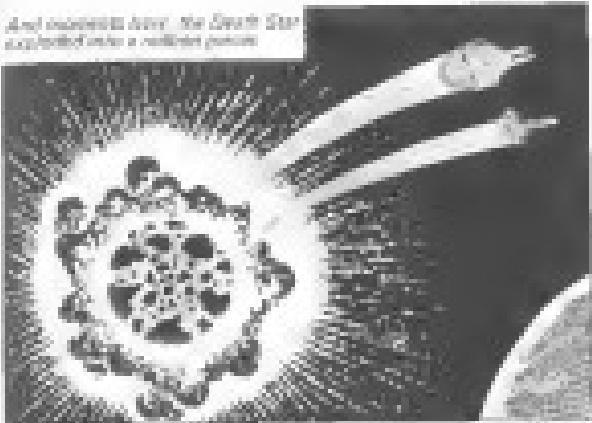

Early Luke, these

it's time. Every last one of them
